Siexandria Gazette.

FRIDAY EVENING, JANUARY 7.

DYNAMITERS AT WORK .- At a late bour Wednesday night the residents in the vicinity of Ninth and Harrison streets, San Francisco, were startled by a terrific explosion. Most of them had retired, and being awakened from their sleep they ran out into the street in their night clothing. The first impression created was that an earthquake had shaken down some buildings in the neighborhood, but an investigation disclosed the fact that a dynamite cartridge had been placed in the cable slot on the Larkin street branch of the Sutter street railroad and ex ploded. The basalt rocks in either side of ploded. The basalt rocks in either side of the slot were found to be loosened and the masonry work badly shattered. The pul-leys upon which the cable runs were also broken and the foundation of the tunnel cracked. Window panes in the vicinity were rattled violently at the time of the explosion. In a salcon two blocks away a lighted lamp was thrown to the floor and lighted lamp was thrown to the floor and nearly caused a conflagration. The iron plates on the manholes of the track were found 200 feet away, to which distance they were hurled. A lady who lives in the neighborhood said that a few minutes before the explosion she saw two men go to the trap. One of them lifted the trap and the other took a package from his pocket, ap-plied a match to it and lowered it into the tunnel. The men then secreted themselves. The explosion followed, and the lady saw the cable and machinery of the trap flying the cable and machinery of the trap laying in all ways. Many of the awakened women and children were so badly frightened that they went to the homes of friends to spend the night, fearful that if they remained in their own homes another explosion might occur and shatter the houses.

ADVICE TO MOTHERS.

MRS. WINSLOW'S SOOTHING SYRUE, for children teething, is the prescription of one of the best female nurses and physicians in the United States, and has been used for forty years with never-failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child from pain, cures dysentery and diarrhea, griping in the bowels, and wind-colic. By giving health to the child it rests the mother. Price 25 cents a bottle.

Alexandria Gazette.

The GAZETTE is now the oldest paper in the State, and with few exceptions the oldest in the country, and its usefulness has been demonstrated and appreciated during the EIGHTY SEVEN YEARS of its existence. In its columns has always been found a mirror of passing events, and the careful chronicling of the history of what is going on in the world has ever been its aim. It is always welcomed in the household, while in the counting room and workshop it has become invaluable.

The GAZETTE has better facilities for obtaining news than any paper outside of the national capital. Situated as it is so close to the great centre of news, it enjoys daily the benefit of the Associated Press dispatches from every part of the world ; hence its patrons can read from its columns in the evening what has transpired that day in every portion of our own domain as well as from every part of the babitable globe. Consequently it is an every day occurrence for the GAZETTE to publish telegrams from the various European capitals twelve and fifteen hours earlier than the morning papers.

Another feature that serves to make the GAZETTE a great desideratum with mer chants is its afternoon market reports from New York, Baltimore, Chicago and other

Correspondence from Washington, Richmond and every section of the State, is published regularly, and all events of interest occurring within the bounds of the Commonwealth are to be found in the columns of the GAZETTE.

The local department furnishes a full and complete history of everything that occurs in and near the city, and this feature will, Cards, Tickets, Briefs, Posters, as ever, receive careful attention.

The GAZETTE's circulation is steadily increasing, especially among people who consult its advertising columns before purchas ing. That this is self-evident may be inferred from the fact that a large country edi tion-nearly as large as the daily--is sent all over this section of country three times a week, and is read by thousands, most of whom send here or to contiguous cities to make purchases. The advantages of advertising in the GAZETTE are, therefore, ap-
